[64] Location

Hanuman Junction

[63] Country

India

Sub Section: Who Benefits Most From This Project?

[100] Beneficiary

Disabled / Sick

[73] Amount

60

[71] Description

The children are handicapped mentally and/or physically and need a lot of care and a home where they can live and develop.

Sub Section: What Is The Problem?

[67] Definition

The handicapped children cannot be given enough care without electric energy and hot water.

Sub Section: What Caused The Problem?

[66] Analysis

The government is cutting the power very often.

Sub Section: What Is This Project Going To Do About The Problem?

[69] Activities

With a solar power system we can give care to the handicapped children effectively. With the hot-water system we can structurally increase the health care of these children.

Sub Section: What Are The Concrete Goals Of This Project?

[68] Goals

With a solar power system we can give care to the handicapped children effectively. With the hot-water system we can structurally increase the health care of these children.

Sub Section: What Are The Expected Results?

[70] Results

A save place where we can treat handicapped children day and night.

Sub Section: What Are Potential Threats To This Project?

[79] Threats

We can only start the project when the full amount of money is there.

Sub Section: Who's MOVING This Project?

[83] Primary Mover

Martin de Groot
