SECTION: OTHER

Sub Section: Anything Else?

[95] Is there anything else you want to mention?

Nearly a billion people have entered the 21st century unable to read a book or sign their names and two thirds of them are women. And they will live, as now, in more desperate poverty and poorer health than those who can. They are the world's functional illiterates and their numbers are growing. According to UNESCO, the total includes more than 130 million school age children, 73 million of them girls, who are growing up in the developing world without access to basic education. Therefore help us to help others
